IVY and BEARLOCK HOLMES
The MYSTERY of the DINOSAUR FOSSIL
MAGIC CAT
15 PUZZLES for sleuths to solve
Kristyna Litten

When a dinosaur fossil vanishes from Bearona's remote Jurassic Ridge, super-sleuth Ivy and her grandpa, Bearlock Holmes, face their trickiest mystery so far.

Can you join the investigation, catch the culprit and play your part in protecting the environment?

Hi again! It's me, IVY – and this is my Grandpa, BEARLOCK HOLMES.
We're both so excited to go on another adventure in Bearona. I wonder what mystery we'll solve this time...
What's that, Ivy? Nom nom. Come, have a honey sandwich. They are rather splendid.
Ivy and Bearlock are great at cracking cases but sometimes they need backup. Whenever you see this magnifying glass, help them solve the puzzle.

Come, meet the people of Bearona:

DETECTIVE HOPKINS

JOB: Investigates and solves crimes

SPECIALITY: Falling asleep on the job

TOP TIP: Always leave things better than when you found them

JOB: Palaeontologist

SPECIALITY: Studies fossils to learn about ancient animals

CURIOUS DETAIL: The handle of her walking stick is the first fossil she ever found

DR. FLORENCE ANNING

PROFESSOR JASPAR MANUEL

JOB: Geologist

SPECIALITY: Knows everything about rocks

PECULIAR SKILL: He can name any rock... just by licking it!

JOB: Sailor of the *Scuttlebutt*

SPECIALITY: Sailing the wild Bearona seas

TRUE OR FALSE: He knows every species of bird

SCOTTY KNOTS

POPPY

JOB: Online News reporter for *Poppy Post*

SPECIALITY: Bringing you the latest news updates

TOP TIP: Always check your facts – even if it's about UFOs

JOB: Inventor

SPECIALITY: Doing crazy experiments in the laboratory

HAS A PASSION FOR: Robots and dinosaurs

DR. NIKOLAI

CHAPTER 1

THE MYSTERIOUS OBJECT

It's a windy Friday evening at Polar Pier. Bearlock is reading his newspaper. Ivy is waving at folks on the pier!

We had a big storm last night, Ivy. Let's hope it doesn't return this weekend.

We've got the Bearona Prize for Science to look forward to.

Who do you think will win this year, Grandpa?

THE BEARONA BABBLE
THIS WEEKEND
2 BEARONTS
FRIDAY

BEARONA SCIENCE PRIZE

Dr. Nikolai in his laboratory

Bearona's top scientists compete for the grand prize. Who will unveil the biggest breakthrough or most innovative invention?

Dr. Nikolai told us, **"This year's prize is mine! I'm keeping my invention top secret for now, but it's going to be roar-some!"** All entries will be presented tomorrow evening, with the winner announced at 8pm.

THE NEXT BIG DISCOVERY?

Dr. Florence Anning continues the hunt for fossils to expand Bearona's understanding of prehistoric life.

Dr. Anning believes there are more dinosaur species to be discovered. Any new findings would be a huge scientific step in understanding evolution, making her a strong contender for the prize.

Geologists are also ready for a major breakthrough in rock research.

Dr. Anning with fossil

Prof. Manuel with rock

Coastal areas in the east were hardest hit by last night's storm which is due to hit again later tonight.

Tonight	Saturday	Sunday	Monday	Tuesday	Wednesday
Storm	Mostly cloudy	Mostly cloudy	Sunny	Mostly cloudy	Sunny
High 18° Low 10°	High 10° Low 8°	High 12° Low 15°	High 21° Low 18°	High 13° Low 10°	High Low

There is an inventor with a secret project. There is a palaeontologist looking for dinosaurs. There is a geologist looking at rocks. Hmm, not much teamwork this year...

Oooh.

Ivy isn't listening to Bearlock anymore. She's spotted something she's never seen before.

WOW! Grandpa! Look what I've found!

What have you discovered there, Ivy? Let's take it to the museum tomorrow. We can see the science prize, too.

That night, Ivy can't stop thinking about the mystery object on Jurassic Ridge. She hopes *Poppy Post* will reveal what the strange object is soon.
