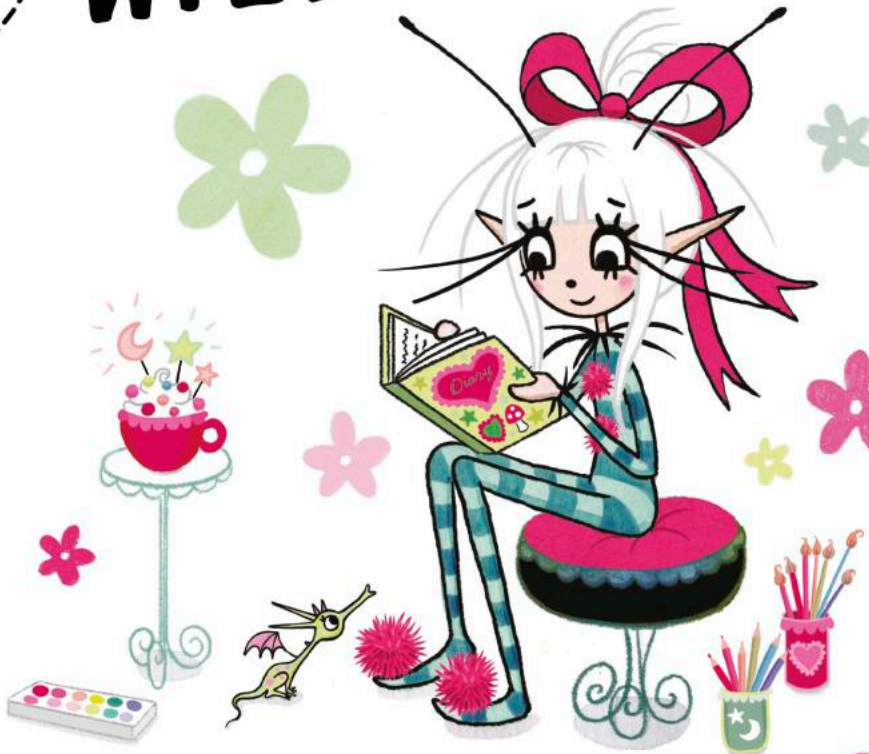
THE DIARY OF WISKA WILDFLOWER



OXFORD
UNIVERSITY PRESS

This book belongs to:

Wiska Wildflower.
(Well, Wiskabella Wildflower if I'm in trouble.)

Birth crystal:

Tinselite! It's a clear crystal shot through with silvery strands. (It meant I got a few strands of natural tinsel in my hair, which I **love!**)

Height:

Currently, **9 and a half** centimetres tall.

Hobbies:

Drawing and painting
and making things.

Favourite things:

Hot chocolate with rainbow sprinkles.
Stars, glitter, flowers, sunshine,
my draglet Sequin,
my friends.

Welcome to Wiskling Wood

by Wiska Wildflower

Twitching

A medium-sized district in Wiskling Wood, known for it's beautiful beaches right by the stream.

Acornia

A slightly larger district in Wiskling Wood.
It is the place where the most acorn trees grow.

Spellbrooke

The capital of Wiskling Wood and the largest district. It's where all the most fancy and expensive shops are and where the royal palace is.

Boundary wall

Wiskling Wood is a magical place hidden within the human world. The boundary wall keeps Wiskling Wood protected from humans and animals.

Main trainline

The most comfortable and fastest way for Wisklings to get around if they are going long distance.

Produce Orchard

This is where lots of food is grown and distributed round Wiskling Wood by the produce train.

Entrance and Exit points

Wiskling explorers sometimes leave the wood to visit the human world.

Crystal Cave

There is only one Crystal Cave in Wiskling Wood and it is where Wisklings are born – from Crystals!

Streams

The main stream runs the whole length of the wood and is joined by the Babbling Brook, which comes down from Wiskling Mountain.

A Note on Wisklings

by Wiska Wildflower

Wisklings are born from **crystals**, from the one Crystal Cave in Wiskling Wood.

The crystals begin as a tiny speck on the cave walls and take about **eleven months** to reach their full size, when they finally crack.

Crystal keeper

New babies stay in the Crystal Cave until their new parents come to collect them.

Wisklings are born from many different types of crystal, and wiskling crystals are different from those in the human world.

Some birth crystals are rarer than others, but being born from a certain crystal makes no difference to anything unless it is the extremely rare diamond.

Diamond babies are royal

Crystal keeper

The crystal keeper's job:

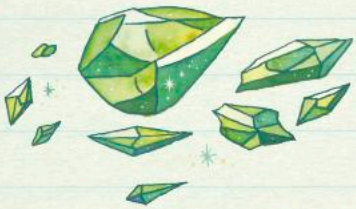
Keep a record of any new crystals, recording them in the official book.

Care for new babies until their parents can collect them.

In charge of the adoption list. Wisklings at the top of the list adopt the next baby born.

Birth crystal is very important to wisklings, and once they crack out of their crystal, the shards are sent off to the vaults for safekeeping.

Wisklings can only do magic with their own birth crystal.



It is used to make their wands.

Birth crystals can also be powdered down to put in potions.

Wisklings can fly around on flowers (blooms) or glide on leaves (leaf surfing).

Wisklings are born with teeny chips of birth crystal in the tips of their antennae. This is why their antennae can often spark when they feel any strong emotion.

Some wisklings have a few strands of natural 'tinsel' in their hair.

Wisklings don't have coloured irises like humans; their **eyes are black.**

Wisklings have **black-tipped noses.**

Pointed ears.

Wiskling girls are born with super-long eyelashes.

Any moles, freckles, or beauty spots are made from birth crystal.

Wisklings can live to **160 years old.**

Wisklings can grow to around **12 cm tall. (Not including antennae!)**

Wisklings have **blue blood.**

There are lots of plants and flowers that wisklings can eat, which are native only to Wiskling Wood.

Trumpet-cup flower milk is very good for wiskling babies.

Starflower petals have sugar crystals on them.

Most wisklings love nature and they live harmoniously alongside it.

A lot of the trees in Wiskling Wood are hollow so wisklings can live inside them. Wisklings also build houses and shops between the trees.

Fashion designers sometimes make clothes from real flower petals. They are allowed to learn and use the anti-wither spell to preserve the petals.

Dear Wiskabella Wildflower,

We are delighted to inform you that we are able to offer you a place at Inkcap's Academy, starting on 2nd September.

Please sign and return the attached slip to confirm your place. Inkcap's Academy uniform can be purchased from Crocus Clothing and School Supplies on Twitching High Street.

Your sincerely,

Petunia Petal

10.01 a.m. My new bedroom

One day until I go to my new school.

Eeeek!

It's called Inkcap's Academy and it's in Twitching. **Twitching!** Yes, I now live on the completely opposite side of Wiskling Wood to my old school in Acornia, and more importantly, **my friends.**

Mum and Dad know I'm upset about us moving away, so they bought me this new sketchbook. Drawing and painting are my absolute **favourite** things to do, and I have always wanted a special sketchbook like this—with thick, creamy paper that you can actually **paint** on, and space
