A very long, long time ago,
Before TV and video,
Before any people walked around,
Dinosaurs stomped upon the ground.

But whatever else they had to do,
Dinosaurs still had to poo!

Where did they poo?
They didn't care -
They just did it . . .

. . . anywhere!

The friends set off on a big poo quest.
It's time to prove what's really best!

And though their search
has just begun,
A **Stegosaurus**
offers one.

There, just behind a great big rock . . .
. . . they find a poo that's quite a shock!

PHEW-EEE!
