What?

What are clouds made of?

What makes the wind blow?

What makes a volcano erupt?

What's inside the Earth?

What's it like in a rainforest?

What's the point of recycling?

What's this?

The deepest cave on Earth is over 2,000m (6,500ft) deep.

What is soil?

What happens to all the water people use?

The biggest use of water in homes is flushing the toilet.

What's under the street?

How?

How high can a plane fly?

How does lightning happen?

How many people are there in the world?

How many countries are there?

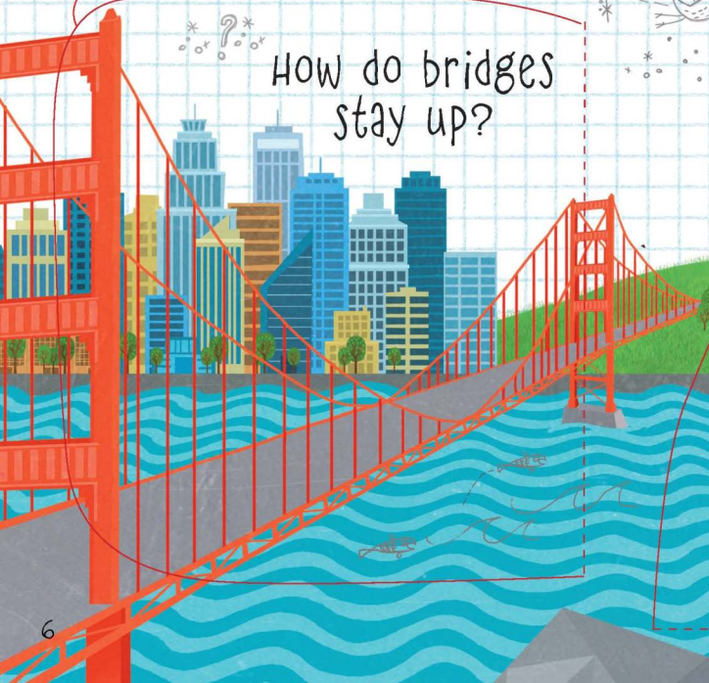

How many different languages are spoken?

How tall is the tallest mountain?

How do bridges stay up?

Over half the people on Earth live in towns and cities.

How long does it take to travel around the world?

How much of Earth is covered in water?

A quarter of all land is mountains.

Bleat!

Bleat!

How are mountains made?

Some mountains grow 2.5cm (1 inch) taller each year.

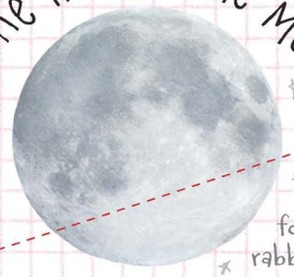

Yes or no?

Can I reach the end of a rainbow?

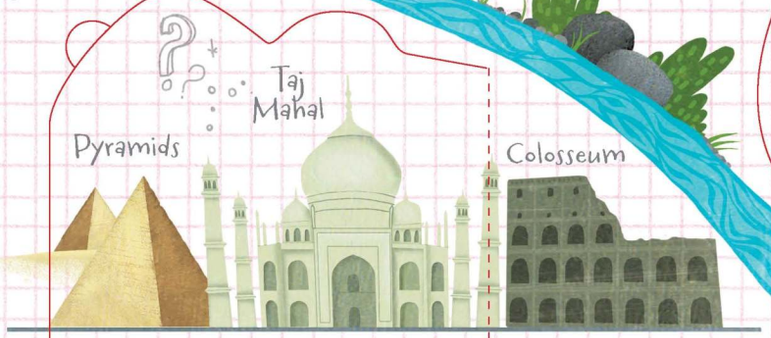

Are there places on Earth that have never been explored?

Does anyone live on the Moon?

There are folk tales about a rabbit on the Moon...

Do you know where these things are in the world?

Do rivers always flow to the sea?

Are deserts always hot?

Deserts are very dry places where few things grow.

Is the world getting warmer?

Have there always been people on Earth?

Do all countries have a ruler?

Do all plants have flowers?
