THE PLANET HOP

Hop from planet to planet in this crazy race game to play with a friend!

START

START

HOW TO PLAY

- Use your finger to follow each move. No need to use a counter!
- One player starts on Wally, and moves from red planet to red planet, one planet at a time.
- The other player starts on Odlaw, and moves from yellow planet to yellow planet, one planet at a time.
- At each turn, move in a straight line (up, down, left and right).
- If your path is blocked, retrace your steps and find a new route!
- The winner is the first player to get to a planet next to their opponent's starting square.

MOON MAYHEM

Help stop the hullabaloo on Planet Red and Blue! Find the words in the moon of letters – the words go up, down, forwards and backwards.
