One day, Ellery finds
an abandoned bicycle.

To her surprise, the bicycle is magical, and they become inseparable. With the bicycle's help, Ellery finds adventure and friendship.

But when Ellery grows up, she loses interest in the bicycle. Will Ellery remember their special bond before it's too late and the bicycle is lost forever?

This tender story is aglow with hope, joy, sorrow, love, and redemption.

Ellery's Magic Bicycle

Story by Maria Monte Illustrations by Zoe Saunders

One day, Ellery found an old purple bicycle.

Suddenly, it sprung up
and–thwack!–
shook off the mud,
dints, and rust.

The bicycle circled Ellery who
spun around, chasing it with
excitement and wonder.
