Today your job is to drive the bin lorry through town to collect the recycling and take it to be sorted.

Here is your team of rubbish collectors.

Before you start work, you need to put on your safety gear. What do you need to wear?

This is your bin lorry!
Can you name all the parts?

The contents of every recycling bin is emptied into the hopper at the back of the bin lorry.

It's early in the morning and your day has begun.
Get into the cab and put on your seatbelt.
It's still dark outside. Push the yellow switch to turn on your headlights. Beep your horn and count the rubbish collectors as they get ready.
