SIMON PHILIP IAN SMITH

WANNA SEE A PENGUIN?

OXFORD
UNIVERSITY PRESS

Hey. Wanna see a penguin?

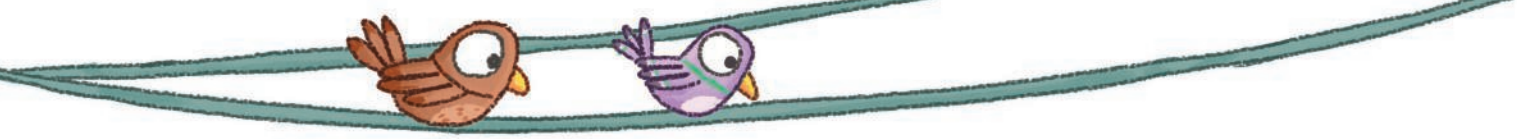

You betcha!

But where?

Don't you worry.
I know *just* the place.
Come with me.

You don't have to be a penguin expert like me to spot one. It's pretty easy when you know what to look for.

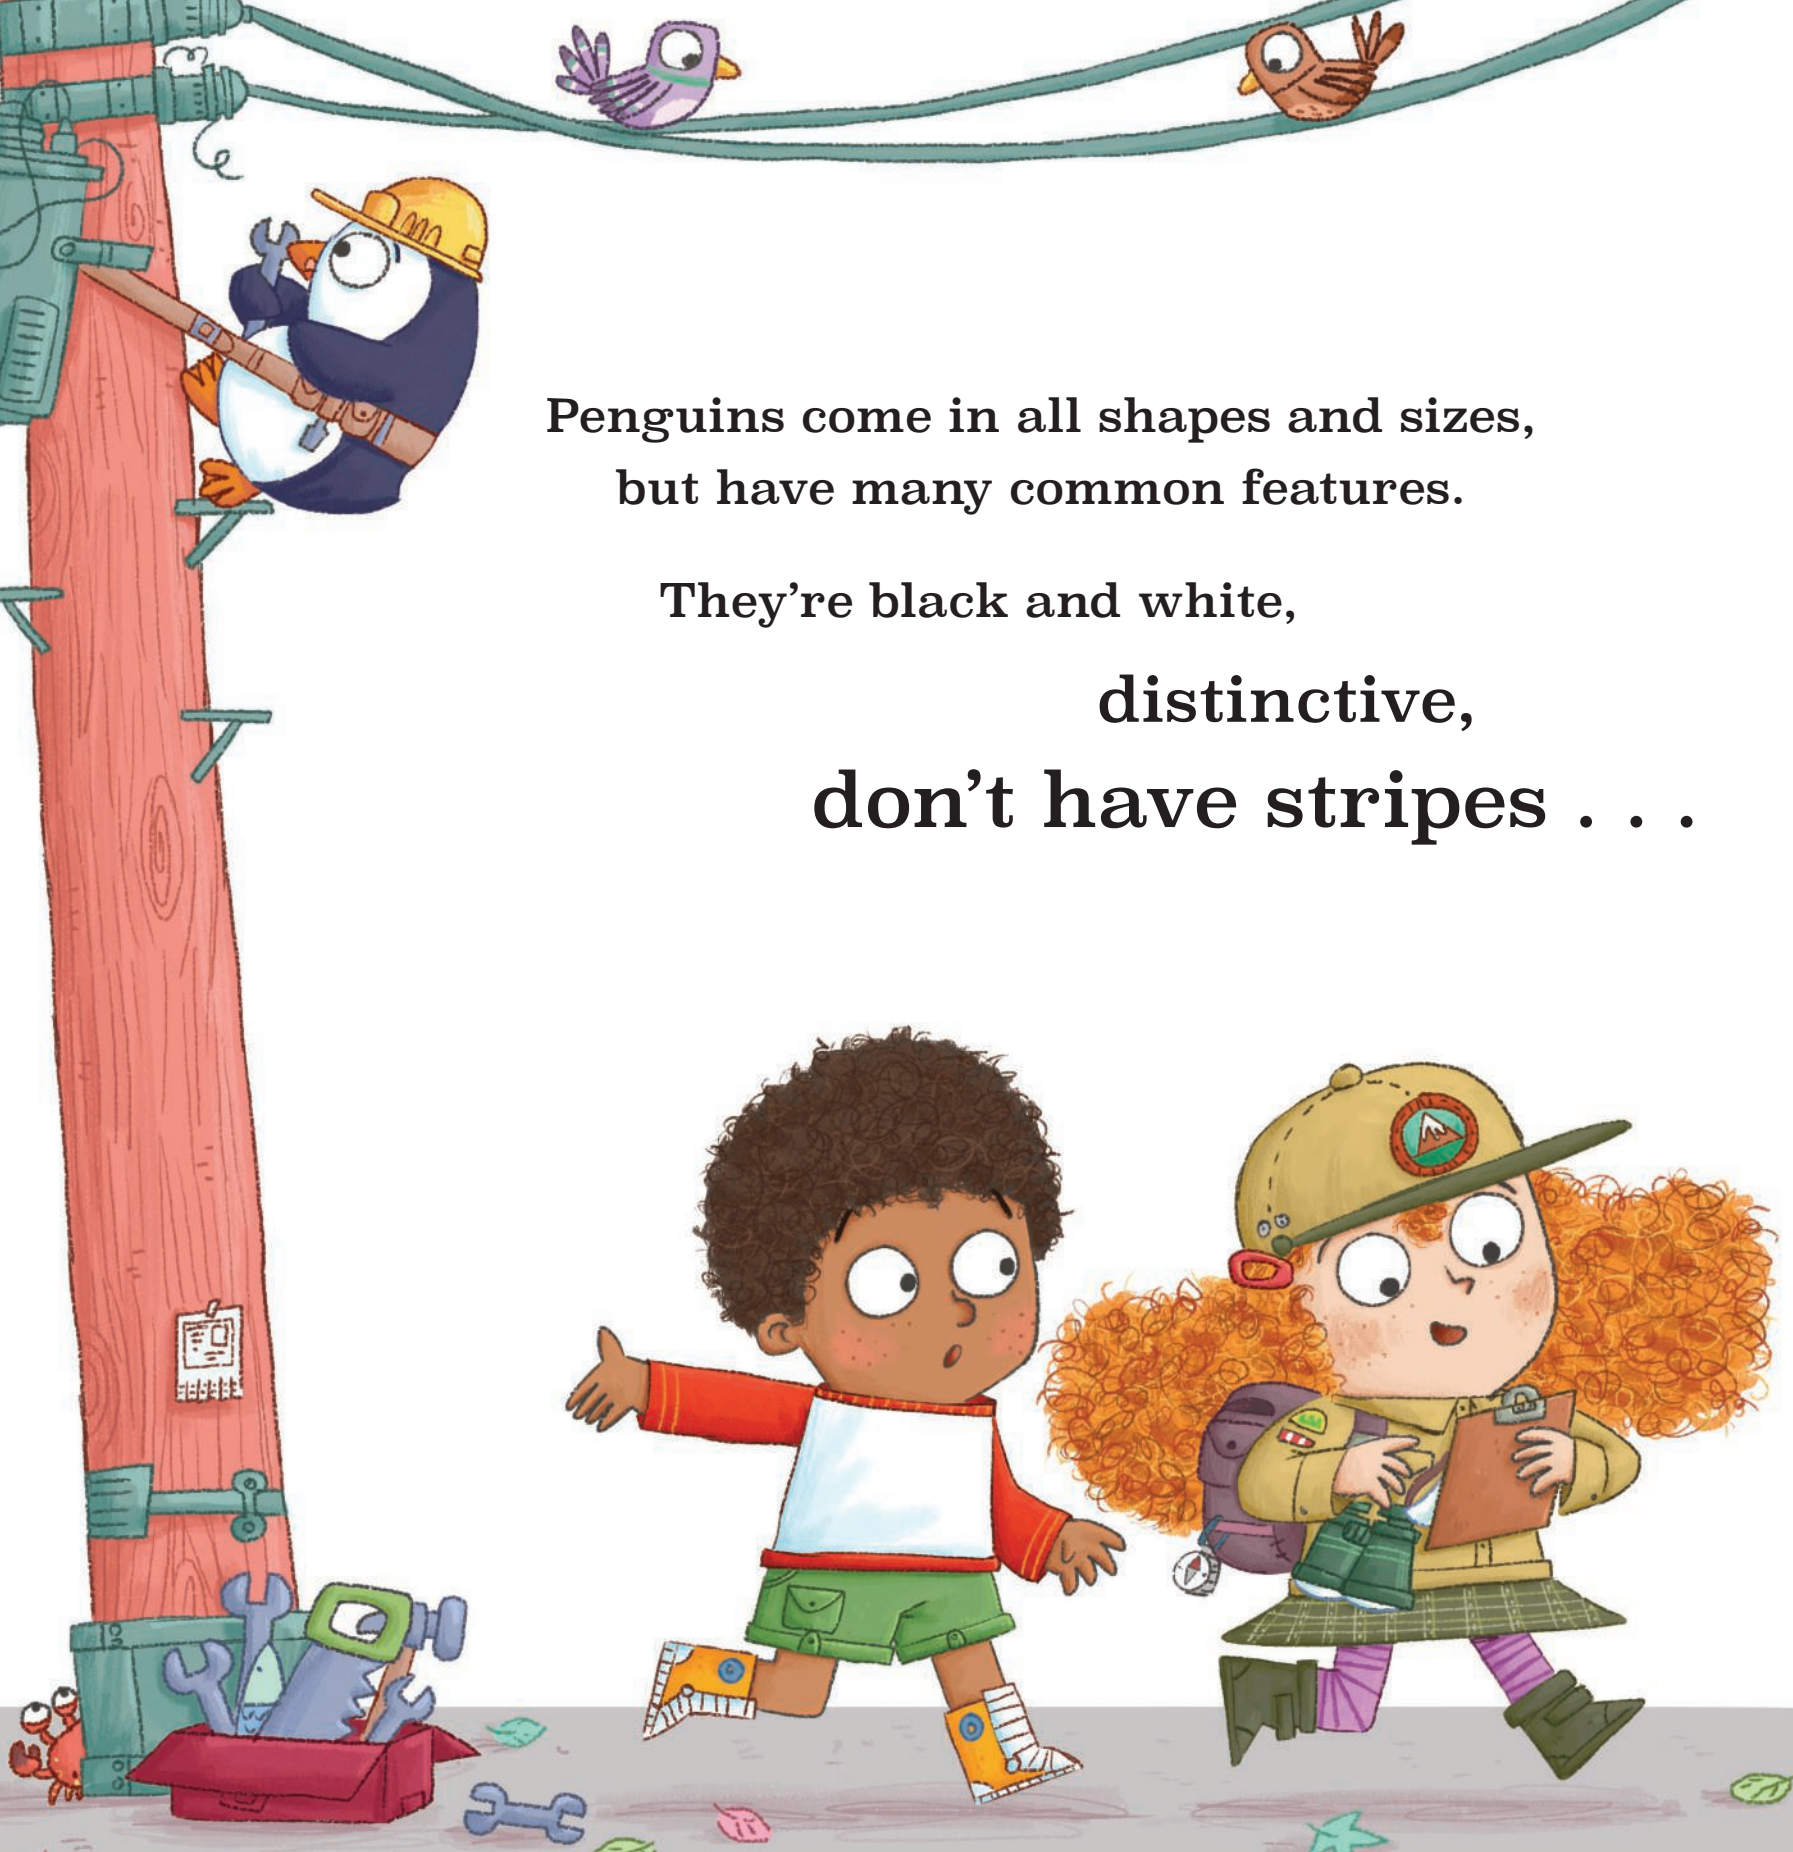

They're **black and white,**

distinctive . . .

And look—**there's one now!**

What?!
Penguins don't have stripes.
I know.
I was just testing.
Well done.

Come on.
This way . . .

Penguins come in all shapes and sizes,
but have many common features.

They're black and white,

distinctive,

don't have stripes . . .

And look!
There's another one!
