Coins

Since long, long ago, people have used money.

BZZZ! Today grown-ups use coins, notes, cards, watches and phones to pay for things.

That is why we can see old coins in museums.

How much?

Coins are worth different amounts. The number on each coin tells us how much each one is worth. Coins come in different sizes and shapes.

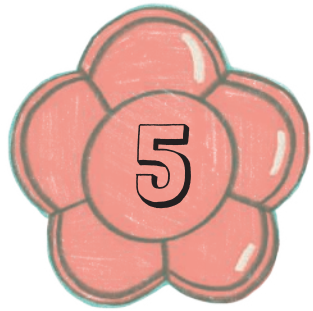

1p (one penny)

2p (two pence)

There are one hundred pennies in a pound!

5p (five pence)

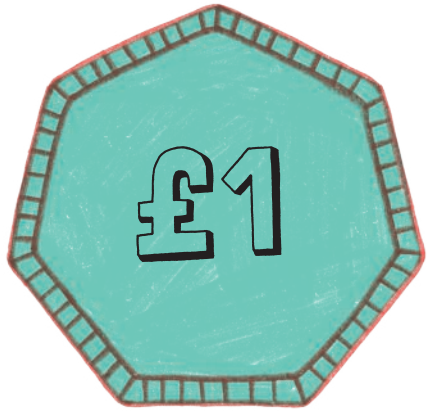

10p (ten pence)

20p (twenty pence)

50p (fifty pence)

£1 (one pound)

BZZZ! Now we know about coins, it's time to go shopping!

What does it cost?

We can find out how much something costs by looking at the price on a tag or ticket.
