Have you ever been to a **museum**
to see **GIANT old bones** on display?
Have you wondered just **who** they belonged to?
How such creatures would eat, sleep and play?

Well, those **bones** are what's left of the **dinosaurs,**
who lived here on the earth long ago –
at a time **before** people existed,
in a world unlike any we know.

So . . .

Let's head through pre-history to meet them,
on a Dino Safari – let's go!
Back to two hundred million years in the past.
Buckle up, take the wheel . . .

TO THE JURASSIC

Ready? Woooaahhh!

Well, hello! I'm a huge **BRON-TO-SAUR-US**.
You have reached the Jurassic. HOORAY!
Come, climb up my long neck for a tour of our world –
all your NEW friends are waiting to play!

These nice conifers, gingkos and cycads
make our home really lush, damp and green.
And our mountains and oceans are teeming with life:
the most MARVELLOUS creatures you've seen!

Ooh, co-eee!

STEG-o-SAUR-US here, sweetie.
Can you count the **big plates** down my **back**?
These **long spikes** on my **tail** will keep danger away
as I munch on this tasty, **green** snack.

I eat **mosses** and **leaves** for my breakfast
and I love the way juicy ferns CRUNCH.
I might NOT be the **smartest** of dinosaurs . . .

but I *do* hope you'll join me for lunch!
