A Little SAILING LESSON

post wave

If you are setting sail for the first time, be sure to have an experienced sailor by your side . . .

It needs to be someone you can trust.

Someone who knows all about the winds, the waves and the fish.

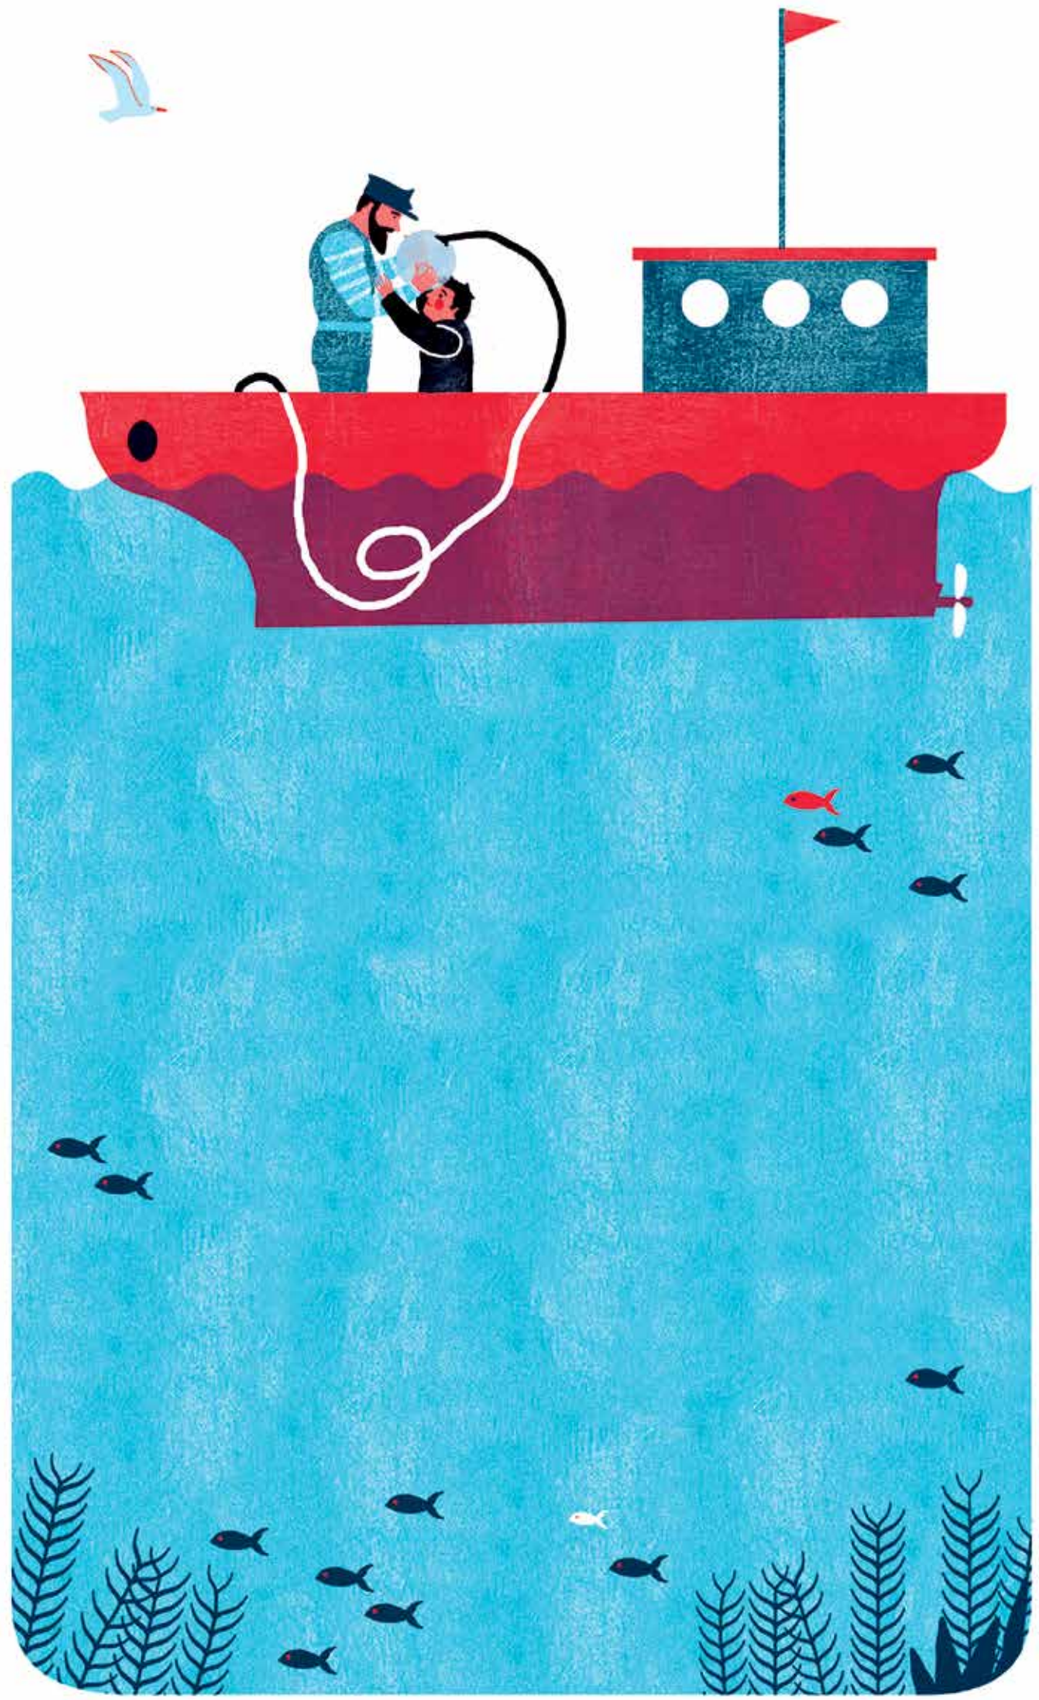

Someone who can show you all they know about the magic and wonder that is hidden in the ebb and flow.

Someone like Aldo.

Aldo has practically spent his whole life at sea and he knows a great many things.

He knows that the first thing a sailor should do is plot a course . . .

And he knows that it doesn't matter how long it takes to get somewhere.

What counts is taking time to enjoy the journey, to roll with the sea's rhythms, to savour the moment and to be enchanted by the wonders of the deep.
