# HUMAN WORLD : Title Bios

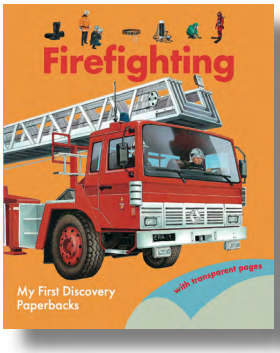

Welcome to the imaginary world of Guiseppe Arcimboldo. Using your 'magic' torch, explore the strange and surprising details of his still life paintings. Each spread more spectacular than the last!

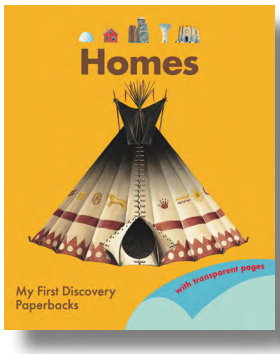

This fact-filled storybook introduces young children to the characteristics and purposes of farm animals – from hens clucking in the henhouse, to cows grazing in the fields, and pigs rolling in the mud.

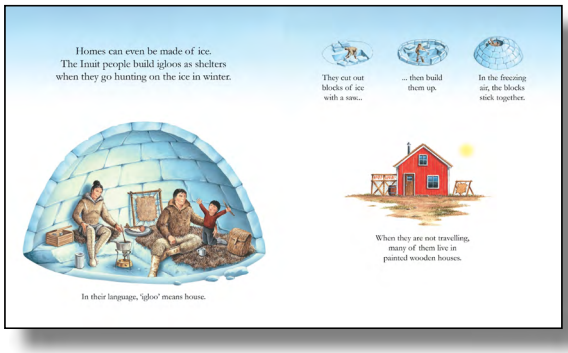

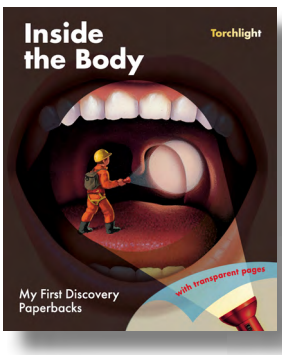

Climb aboard a fire-engine, sirens blaring! Help firefighters rescue children, grown-ups, and animals. Find out how humans discovered fire for the first time, and explore all the special equipment firefighters use to tackle fires today.

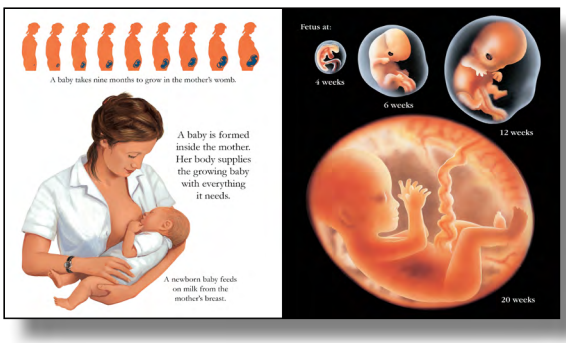

Home, sweet home! Whether it's big or small – made of brick, wood, or ice – your home is always special. In this storybook, readers are welcomed into the homes of people from all over the world and throughout history.

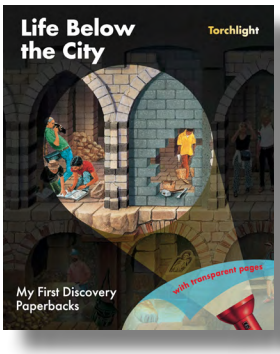

A lot goes on inside the human body – and with the help of your 'magic' paper torch, you'll see just how much! Introduce children to human anatomy, whilst teaching them that bodies come in all shapes, sizes, and skin tones.

# HUMAN WORLD : Title Bios

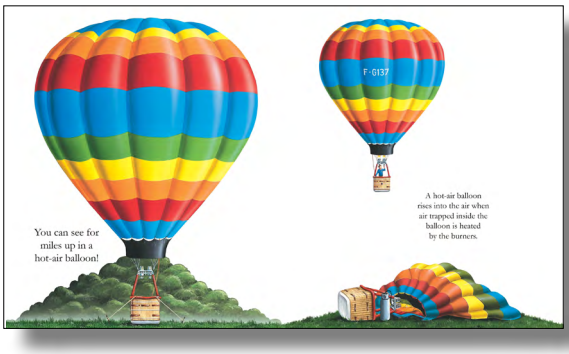

In a city, you'll see lots of buildings and statues – but to discover the hidden world beneath the streets, you'll need your 'magic' torch and your sense of adventure! Explore cellars, pipes, underground car parks, and ancient ruins.

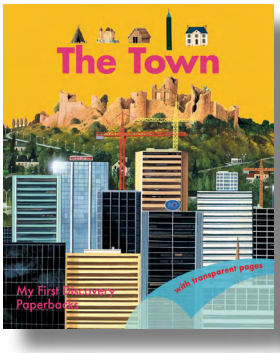

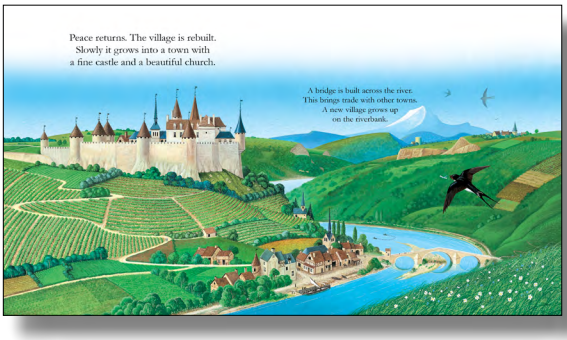

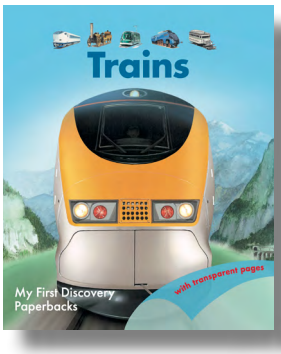

Children, prepare for take-off! Board one of the biggest passenger planes in the world. Hover above ground in a helicopter. Rise above the clouds in a hot air balloon. Then shoot into space in a rocket.

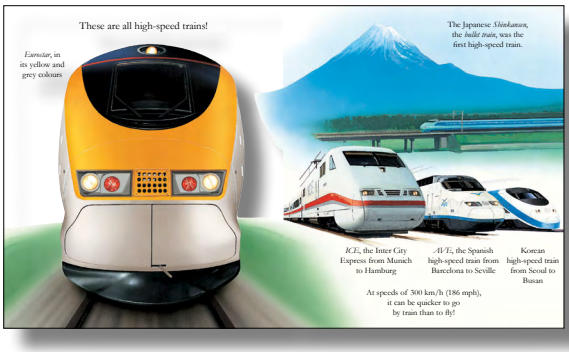

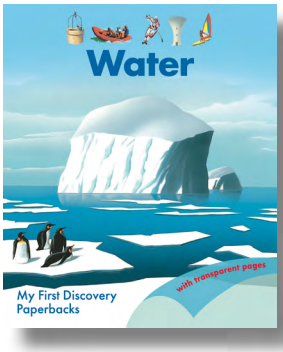

Travel through time and see how a prehistoric settlement grows into a village, then a walled town, and finally a bustling city. Watch the landscape change as huts become houses, roads connect the countryside, and cranes tower over city streets.

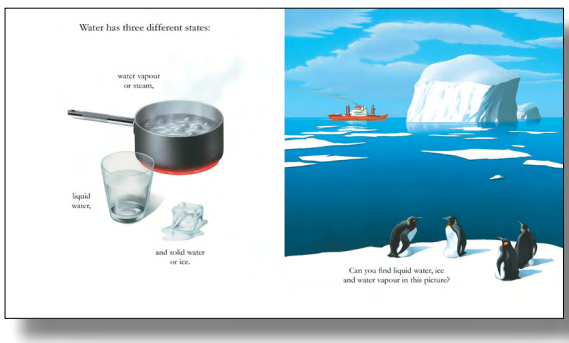

All aboard! This storybook gives young readers a first-class ticket for some of the oldest, strangest, biggest, and fastest trains in history – from the steam engines of the past, to the high-speed electric trains of the present.

Water is flowing all around us; in nature, in the home, and even inside our bodies. Discover the different states of water, how weather cycles work, how water reaches our homes, and how crucial it is for daily life.
