TIP TOP phonics

Start their reading adventure with Tip Top Phonics! Set in the Ice Age, this series for 4 to 7 year-olds follows the Science of Reading with a truly decodable and scaffolded approach that removes the guesswork for beginner readers. Instead of feeling overwhelmed, children start with just five sounds (s, a, t, i, m) and experience the magic of finishing a real book right from the start. The series grows with the reader, moving from the alphabet into more complex structures like digraphs and two-syllable words..

Featuring fresh, charming illustrations and highly engaging Ice Age characters, each book includes discussion questions, a word list for practice, and a game to encourage children. By focusing on consistent success and clear progression, Tip Top Phonics turns learning to read into a series of proud moments where a child can say, "I read this all by myself."
