# INVENTOR'S PROFILE

Name... Wallace

Speciality... Time-saving devices

Slipper preference... Slip-ons with thick woolly linings

Size... 9 1/2

I most admire... Professor Proctor, chairman of the Amateur Inventors' Club. He has Patents Pending on 326 inventions! And Einstein.

My most valued tool... My new mini-welding-kit. It goes everywhere with me.

Mother of all invention is... Necessity? Or is it perspiration?

My best invention... It's saved me a lot of effort, too. *My Get-u-up contraption. Gets me off to a good start every morning.*

My worst invention... That Autochef. Ruined my breakfast AND my dining room.

My favourite food is... A nice bit of CHEESE!

Need to choose a passport photo. Tricky!

Inventing does make me peckish.

The Snoozatron wasn't great either!

Always read the small print

This book is the private and protected property of Wallace

If found please return to 62 West Wallaby Street

Any breach will be reported to the appropriate authorities of invention rights (offices). The publisher and licensee are not liable for any injury arising from misuse. Please return it to the above address immediately.

Gromit distracted me with cheese!

They don't make tools like they used to. All these beauties are still going strong.

| NORTHERN TOOL SUPPLIES             |               |
|------------------------------------|---------------|
| 50 YEAR GUARANTEE                  |               |
| Jumping John's Round Bunny Scooper | 5/-           |
| Makedoiamond 9" Circular Saw       | 6/2d          |
| McVitie's Biscuit Joiner           | 3/-           |
| Lazy Tongue Riveter                | 2/4d          |
| Suction-blower for cracker crumbs  | 6/-           |
| <b>Total</b>                       | <b>£12/6d</b> |

NO REPLACEMENTS WITHOUT THIS RECEIPT  
PLEASE KEEP SAFE  
NOT VALID WITHOUT A STORE STAMP

Last year's Christmas card made by my Cardomatic. It managed to capture the true spirit of Christmas.

In an artificial kind of way.

## MY INVENTING ALBUM

Must adjust the sensor to detect only crackers on the carpet.

## SOCC-A-MATIC

Offer to England for next World Cup?

1. Starting with simple shapes you can draw anything - even me!

3. Big smile

4. Ears

5. Looking handsome!

6. Ahh! I've even got me favourite sweater on.

2. I never realised my eyes were that close together.

Can suck a bunny out of its hole without harming a hair on its little head. Genius.

## THE TECHNO TROUSERS

I got them from NASA you know!

Not sure it would help.

I wish they'd kept them.

The jewel in a bone fide inventor's crown is his blueprints. I've applied for so many patents now, I'm getting quite an expert.

## Some ideas

Must get the wheels in motion for these, eh Gromit?

My favourite magazines

I'm just crackers about cheese!

POPULAR INVENTOR

Cheeseweek

CAER DOES

## MY TOP FIVE CHEESES

Wensleydale  
Cheddar  
Stinking Bishop  
Cheshire  
Stilton

Must buy more cheese!

## MY ALL TIME FAVOURITE DISH

A nice plate of Wensleydale and cream crackers...

The Lancashire Amateur Inventors' Showcase

Exhibitor: Wallace

Invention: The Bully Proof Vest

BRONZE AWARD

Awarded just before it was accidentally motivated. The boxing glove shot out and punched the judge! We weren't invited back this year.

# A MATTER OF LOAF AND DEATH

## Invention

The West Wallaby Windmill

## Test results

The Mill has really been through... er... the mill recently. It's undergone a makeover by Piella, been the scene of loaf-to-loaf combat and has been blown up. But those sails keep turning, that stone keeps grinding and the bread is still as tasty as ever. I was almost crushed by one of my own cogs, too. It turned out that my new fiancée liked butchering bakers. Luckily, a poodle-powered flour sack came to my rescue.

## Conclusion

I reckon this bakery business will give us the bread we need for a long time to come (although Mrs Mulch is trying to shut us down, and the Planning Office seem to be taking her VERY seriously).

Piella wormed her way into Wallace's affections but she had no heart. Luckily, her dog Fluffles is different...

## PIELLA'S DIARY

Piella and I went on some smashing dates. We learned how to tango and even dance the fandango.

FRED ASTAIRE, EAT YOUR HEART OUT

## MY DATES WITH PIELLA

- MONDAY: Picnic in the park with Piella and Fluffles.
- TUESDAY: A day at the funfair.
- WEDNESDAY: Venetian dreaming... punting on the Manchester Ship Canal.
- THURSDAY: Tango for two! (Passion obligatory!)
- FRIDAY: Shopping for a special present.

I always knew there was something fishy about Piella. It was odd that she made our house look so homely when her house looked like Dracula's castle.

When I stumbled across Piella's diary, her ghastly secret was revealed.

Love is a many splendoured thing... but it doesn't half tire you out.

Piella had been sacked as the 'Make-O-Lite' girl when the balloon could no longer get off the ground.

Light as a feather she wasn't.

Piella's boudoir! Thirteen dummies sitting pretty. Twelve bakers already dead.

That was when I realised I had to find a way to protect Wallace.

Gromit rescued us from the bomb but then we got caught up in a chaotic chase all over the mill.

When Piella tried to escape in her balloon she fell to the ground and ended up in the zoo's crocodile pit.

## PIELLA'S SHOCKING PLAN

Piella gave me a wonderful present

The cake looked truly delicious

How was I supposed to know...

...that inside there was a bomb with a short fuse!
