How many bears are there?

Can you see Jim Bear?

What colour is the polar bear?

What pattern is the girl's dress?

How to use this book

Words has been created especially for young children. It will give them a head start in learning vital pre-school skills such as language and number recognition. It includes the words that children are most familiar with by the age of five. Bright, colourful photographs of familiar and unusual objects will help to widen their knowledge of the world around them. Each section has its own theme, to help young children make the connections between words and pictures.
