please print off and read at your leisure.

Before Baby Brains was born, Mrs Brains played
classical music on headphones to the baby inside her tummy.

Mr Brains played rock and roll music on his stereo.

When Baby Brains was born,
he turned out to be amazingly clever

– especially at music. Mr and Mrs Brains were astounded when they heard Baby Brains play his toy piano.

He could also sing any note with perfect pitch. Baby Brains was a musical genius.

One evening Baby Brains said he wanted to attend a school of music.
